## MEMBER WINGS IS YOUR BEST PRIVATE JET CLUB VALUE

Commercial charter companies boast about the size of their fleet. Member Wings takes a different approach. We partner with our own experienced providers who have the correct aircraft needed for your trip. Our priority is to create Member satisfaction by prompt, seamless service to your destination, by ensuring flight safety and by delivering superior personal service to you and your guests.

## SAVE TIME

While many things can be replaced or substituted, time is an irreplaceable resource. Every passing second becomes history. Opting for a Member Wings flight can save you many hours compared to a commercial flight. Lengthy processes such as airport parking, shuttle services, TSA screenings and flight connections further slow down the travel experience.

## SAFETY

Trust is paramount to us, which is why we choose flight providers who undergo rigorous audits by leading Aviation Audit Specialists to ensure their compliance with the highest aviation safety standards.

We prioritize the safety of our clients and their guests in every aspect of our operations. To ensure the highest standards of safety, our flight operators are certified by renowned organizations such as Aviation Research Group US (ARGUS) and/or Wyvern, which are known for their rigorous flight safety audits. These audits are conducted regularly to ensure that your aircraft pilots and crews adhere to the highest safety standards and practices.

All Member Wings flights are sourced and operated through an exclusive network of FAA Part 135 licensed air carriers. Member Wings flight operators have undergone extensive scrutiny and have received approval from ARGUS and/or Wyvern, two of the most stringent private aviation audit companies in the industry. This ensures that our Members will have complete peace of mind knowing that their flights are operated by experienced professionals.
